

Super Image Technologies Co., Limited

1. Products Name:

15Liters-100Liters Vacuum Cleaner

2. Package:

Standard package: 1 Set per carton, 10cartons per pallets.

MOQ: 10-20sets.

3. Product Highlights:

1). Latest dusting principle.

The fan impeller of the vacuum cleaner, driven by the motor at high speed, expels the air from the impeller at high speed, and at the same time makes the air in the dust-collecting part continuously supplement the intake fan. In this way, a higher pressure difference may be formed with the outside world. The dust and dirt of the suction nozzle are absorbed into the suction part with the air, and through the leakage device, the dust and dirt are collected into the dust canister.

2). The componment and structurel of the superclean vacuum cleaner.

SuperClean vacuum cleaners are equipped with an assembled brush head for cleaning floors and carpets. Suction cleaners are also equipped with a series of cleaning brushes and suction nozzles to clean corners, curtains, sofas and crevices.

2)-1. Throat: All suction vacuum cleaners will be equipped with hard-throat pipes to connect soft-throat pipes and accessories for cleaning.

2)-2.Electric brush: The cleaning head of the internal vacuum cleaner is a special accessory of the hybrid vacuum cleaner.

2)-3.Round brush head: also known as small suction nozzle, can do 360* turn, easy to clean furniture, fine mesh fabric, etc.

2)-4.Flat suction nozzle: also known as gap suction nozzle, is a slender, flat hard suction nozzle. It is especially suitable for cleaning wall, radiation heater, corner and shallow and narrow areas.

2)-5..Dust-cleaning brush: Made of long and soft mane, suitable for cleaning curtains, walls, etc.

Filtration editing

3. Three-layer Filtering device of the superclean vacuum cleaner.

3)-1. Dust bag filtration:

Dust bag type is filtered by filter material such as dust bag and HEPA. Dust bag should be replaced frequently: 99.99% particles with size as low as 0.3 micron are filtered out, and dust bag should be replaced after each use. Dust bag is used as filter feature, which is clean and convenient, and need not be cleaned every day. The disadvantage is that for a long time, the filter capacity of the dust bag decreases, the pore of the cloth will open, and the filter capacity will decline seriously, which needs to be replaced.

3)-2. Dust cup filtration:

Dust cup is filtered by cyclone duct and HEPA and other filter materials. One key is used to pour out the dust. It is easy to clean up. Dust cup filters garbage and gas through the high-speed rotating vacuum airflow of the motor, and then purifies the air through HEPA and other filter materials, so as to avoid

secondary pollution. The advantage is that the dust bag does not need to be replaced frequently; the disadvantage is that it needs to be cleaned up after the vacuum is finished.

3)-3. Water filtration:

Water filtration uses water as a filter medium so that most of the dust and microorganisms will be dissolved and locked in the water when passing through, and the rest will be further filtered after passing through the filter, making the exhaust of the vacuum cleaner may be cleaner than the air when inhaling. The advantages are both wet and dry, while the disadvantages are cleaning after vacuum cleaning.

4. Main Data:

4-1). 15Liters Vacuum Cleaner

Product Model	SI-VC15#
	
Product Name	15Liter Industrial Vacuum Cleaner
Barrel Capacity	15Liters
Barrel Model	Rotary semi-automatic dumping style
Rated Power	1200W
Functions	Dry, Wet, & Blow 3 functions
Cable Length	4m
Flexible Pipe Length	2.5m/5.0m/10m
Working Covering Area	200sq.meters
Vacuum Degree(Pressure)	>20Kpa
Machine Net Weight	17.5KG
Package Size	35cm*35cm*60cm

4-2). 20Liters Vacuum Cleaner:

Product Model	SI-VC20#
----------------------	----------

Product Name	20Liter Industrial Vacuum Cleaner
Barrel Capacity	20Liters
Barrel Model	Rotary semi-automatic dumping style
Rated Power	1200W
Functions	Dry, Wet, & Blow 3 functions
Cable Length	4m
Flexible Pipe Length	2.5m/5.0m/10m
Working Covering Area	200sq.meters
Vacuum Degree(Pressure)	>20Kpa
Machine Net Weight	19.5KG
Package Size	38cm*38cm*65cm

4)-3. 30Liters Vacuum Cleaner:

Product Model	SI-VC30#
<div style="display: flex; align-items: center;">  <div style="text-align: center;"> <p><i>BIG POWER FLOOR CLEANING MACHINE</i> <i>MULTI-PURPOSE VACUUM CLEANER</i> <i>MULTI-FUNCTION CARPET CLEANING</i> <i>AUTOMATIC SCRUBBER & CLEANER</i></p> </div> </div>  	
Product Name	30Liter Industrial Vacuum Cleaner
Barrel Capacity	30Liters
Barrel Model	Rotary semi-automatic dumping style
Rated Power	1400W
Functions	Dry, Wet, & Blow 3 functions
Cable Length	4m
Flexible Pipe Length	2.5m/5.0m/10m
Working Covering Area	200sq.meters
Vacuum Degree(Pressure)	>20Kpa
Machine Net Weight	21.5KG
Package Size	40cm*40cm*70cm

4) -4. 60Liters Vacuum Cleaner

Product Model	SI-VC60#
<div style="display: flex; justify-content: space-between; align-items: center;"> <div style="text-align: center;">  </div> <div style="text-align: center;"> <p>BIG POWER FLOOR CLEANING MACHINE MULTI-PURPOSE VACUUM CLEANER MULTI-FUNCTION CARPET CLEANING AUTOMATIC SCRUBBER & CLEANER</p> </div> </div> <p>Dry & Wet Double Function Brush & Absorb & Blow Three Use 1200w-1400w</p> <p>Dust Bags+Filter Net</p> <div style="display: flex; justify-content: center; align-items: center;">  <div style="margin-left: 20px;"> <p>60Liters</p>  </div> </div>	
Product Name	60Liter Industrial Vacuum Cleaner
Barrel Capacity	60Liters
Barrel Model	Rotary semi-automatic dumping style
Rated Power	1400W
Functions	Dry, Wet, & Blow 3 functions
Cable Length	4m
Flexible Pipe Length	2.5m/5.0m/10m
Working Covering Area	400sq.meters
Vacuum Degree(Pressure)	>20Kpa
Machine Net Weight	23.5KG
Package Size	40cm*40cm*90cm

4)-5. 70Liters Vacuum Cleaner

Product Model	SI-VC70#
<div style="display: flex; align-items: center;"> <div style="text-align: center; margin-right: 20px;">  </div> <div style="text-align: center;"> <p>BIG POWER FLOOR CLEANING MACHINE MULTI-PURPOSE VACUUM CLEANER MULTI-FUNCTION CARPET CLEANING AUTOMATIC SCRUBBER & CLEANER</p> </div> </div> 	
Product Name	70Liter Industrial Vacuum Cleaner
Barrel Capacity	70Liters
Barrel Model	Rotary semi-automatic dumping style
Rated Power	2800W
Functions	Dry, Wet, & Blow 3 functions
Cable Length	4m
Flexible Pipe Length	2.5m/5.0m/10m
Working Covering Area	400sq.meters
Vacuum Degree(Pressure)	>20Kpa
Machine Net Weight	25.5KG
Package Size	48cm*48cm*95cm

4)-6. 80Liters Vacuum Cleaner

Product Model

SI-VC80#

**BIG POWER FLOOR CLEANING MACHINE
MULTI-PURPOSE VACUUM CLEANER
MULTI-FUNCTION CARPET CLEANING
AUTOMATIC SCRUBBER & CLEANER**

Product Name	80Liter Industrial Vacuum Cleaner
Barrel Capacity	80Liters
Barrel Model	Rotary semi-automatic dumping style
Rated Power	4200W
Functions	Dry, Wet, & Blow 3 funitons
Cable Length	4m
Flexible Pipe Length	2.5m/5.0m/10m
Working Covering Area	400sq.meters
Vacuum Degree(Pressure)	>20Kpa
Machine Net Weight	27.5KG
Package Size	50cm*50cm*100cm

4)-7. 100Liters Vacuum Cleaner

Product Model

SI-VC100#

**BIG POWER FLOOR CLEANING MACHINE
MULTI-PURPOSE VACUUM CLEANER
MULTI-FUNCTION CARPET CLEANING
AUTOMATIC SCRUBBER & CLEANER**

Product Name	100Liter Industrial Vacuum Cleaner
Barrel Capacity	100Liters
Barrel Model	Rotary semi-automatic dumping style
Rated Power	4200W
Functions	Dry, Wet, & Blow 3 funitons
Cable Length	4m
Flexible Pipe Length	2.5m/5.0m/10m
Working Covering Area	400sq.meters
Vacuum Degree(Pressure)	>20Kpa
Machine Net Weight	30.5KG
Package Size	55cm*55cm*105cm

5. Delivery time and Payment methods:

By Sea: Delivery time: about 25-30 days.

6. Quality Warranty:

SuperImage offers “3R” quality warranty for our Eco Sol Printers-”Replacement, Return, and Refund” will be guaranteed for inferior quality products.

7. Price List for Different Quantity:

Models	Unit Price(EXW Net Price)	MOQ
15LITERS	55USD PER SET	20SETS
20LITERS	60USD PER SET	20SETS
30LITERS	75USD PER SET	20SETS
60LITERS	150USD PER SET	10SETS
70LITERS	175USD PER SET	10SETS
80LITERS	200USD PER SET	10SETS
100LITERS	220USD PER SET	10SETS
